Active Learning in the Flipped Classroom  
April 18, 2018 - Kelly Alumni Center - Cox C - 7:30 AM

Dr. Virginia Watson, M.D.  
TCU and UNTHSC School of Medicine

Dr. Clark Jones, Ph.D.  
TCU Department of Biology

This Grand Rounds session is designed to review the concept of a flipped classroom and to engage audience members to participate in a flipped classroom environment. The experience aims to encourage group discussion around the benefits of flipped classroom design and to provide an opportunity to apply these techniques in the classroom setting. Medical history in Texas will be the subject matter explored throughout the lecture and active learning sessions of the presentation.
Twitter offers a means for educators, clinicians, and researchers to communicate and stay connected with each other in real time through brief 140-character messages. Instead of waiting to discuss new research in person with a handful of colleagues or at a conference, academic medicine professionals can reach more people in more places through social media. Read More.

Epigum Courses Available for School of Medicine Faculty
These courses are aimed at staff who wish to learn more about how to improve the way they plan and deliver their teaching, and how to use learning technologies effectively in their courses.
